Boasted Bulgarian Victory Becomes Staggering Defeat

London, Sept. 1.—The Times special correspondent with the Serbian army at Saloniki, Aug. 30, telegraphed: "The Bulgarians offensive in the Ostrovo region appears to be temporary, if not definitely, broken. The Serbians, occupying very strong positions, stood their ground magnificently, inflicting such enormous losses on the enemy that the Bulgarians 'victory' of which the Bulgarian communiques boast, should more properly be described as a staggering defeat.

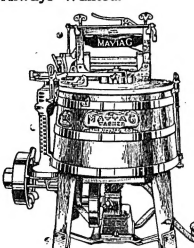

Canadian Patriotic Fund

The Patriotic Fund desire to acknowledge receipt of the following payments. These are payments made by outside subscribers. The financial year will close on the 31st instant and we will then publish a complete list of subscribers for the 12 months.

Here is the Most Practical
Washing Machine Made—
Exactly What You Have
Always Wanted.

The Maytag Multi-Motor Washer

Complete with Engine
and Swinging Wringer

It is equipped with a light, powerful, compact little engine that does all the hard work of washing and wringing, and does a bigger, better, and cleaner washing in an hour or two than you can possibly do with a wash board and tub in a day's time. This Washer takes up no more room than an ordinary wash tub and can be used in the kitchen, laundry, dining room, on the porch or out in the yard. It requires no belts, pulleys, no electricity or water power, and no waiting for the men to bring their engine from the barn.

Besides running the washer and wringer, the machine is equipped with pulleys so you can operate either small machinery such as churning, sewing machine, food chopper or anything else that does not require more than one-half horse power.

The MAYTAG MULTI-MOTOR WASHER is splendidly made of the best materials and is guaranteed against defects for a period of three years, and this warranty covers the washer, wringer and engine. This is not an ordinary washing machine, but something new, with exclusive patented features that no other washer has or can have.

WASH-DAY, and that is WASH-DAY, changed into PLAY-DAY. Goodbye backache, headache, nervous week! No woman need bend over the wash tub as her grandmother did, nor turn the old-style washer in her brother did, if she has a MAYTAG MULTI-MOTOR.

Nearly FIVE HUNDRED of the Wide Awake, Up-to-date, Progressive Hardware and Implement Dealers in Manitoba, Saskatchewan and Alberta are selling this machine.

Faced By Revolt, King Constantine Said to Have Quit

General Mobilization of Greek Army Ordered Once More

London, Sept. 1.—The beginning of a revolution in Macedonia is reported in a Reuters dispatch filed yesterday at Saloniki.

KING ABANDONS

London, Sept. 1.—King Constantine of Greece has abdicated, according to the British official press representative at Saloniki. According to this information, Premier Zaimis will remain at the head of the government.

The correspondent questions whether the entente allies desire the active assistance of Greece. The press representative says the king has abdicated in favor of the crown prince, with Venizelos as the power behind the throne. The new policy, he reports, will be to work with the entente allies.

Regarding the report from Saloniki that King Constantine has abdicated

his throne, the Greek minister in London said today: "I have received no such information, and I certainly do not believe such a thing has taken place."

ANOTHER REPORT

London, Sept. 1.—The correspondent at Saloniki of Reuters Telegram company, under date of Wednesday, also sends the report that King Constantine of Greece has abdicated, adding:

"Pending confirmation, it must be mentioned with all reserve." The correspondent says that the report is that the Greek crown prince has been appointed regent, and that Alexander Zaimis, supported by the Premier Venizelos, retains the premiership.

The dispatch adds that the general mobilization of the Greek army has once more been ordered.

RUSSIANS CAPTURE 15,011 PRISONERS

Official Statement from Petrograd Very Encouraging

Petrograd, via London, Sept. 1.—In the course of battles yesterday on the western Russian front, says the Russian official statement of today, the Russians captured 280 officers and 15,011 men. Of this number 2,400 were Germans.

The Russians also captured 6 guns, 55 machine guns and 7 bomb-throwers.

London, Sept. 1.—Dulgeria has declared war on Romania, according to an official announcement made at Saloniki, forwarded by Reuters correspondent there.

GAIN SOME GROUND

London, Sept. 1.—Five successive

attacks were made by German troops last night on British positions on the Somme front. The war office announced today that the Germans had penetrated the British defenses on a small frontage at two points between Ginchy and Highwood.

NOTHING IMPORTANT

Paris, Sept. 1.—The war department statement today regarding military operations in the Balkans says: "Army of the east: There was no event of importance to report. The artillery bombardment continues at various points along the front."

Timothy Seed Hints

Geo. H. Clark, seed commissioner of Dominion of Canada Department of Agriculture, Seed Branch writes from Calgary:

The 1916 crop of Alberta timothy seed would seem to require special facilities for marketing and the following tentative arrangements have been made, subject to change as experience in handling the seed may warrant.

(1) The Dominion Department of Agriculture and the Board of Grain Commissioners agree that the widely and favorably known system for grading, handling and marketing of grain should so far as possible be made available for timothy seed.

(2) For this year the Government International elevator at Calgary will be fitted for the handling of timothy seed. Timothy seed will be received in bags, the bags returned to the shipper whose name is contained thereon, farmer's lots being kept separate, though in quantities of less than car-lots. The seed will be cleaned and graded and warehouse certificates issued for the net weight and grade or grades of seed obtained after cleaning. The total charge for receiving, cleaning, elevating, sacking and loading elevator will be 50 per cent. Large bins will be cleaned for Extra No. 1, No. 2, No. 3 and rejected grades.

After cleaning, farmer's lots of timothy may not retain its identity but may be bulked with other lots of the same grade.

(3) Alberta timothy seed growers will do well to remember that upwards of two million bushels of timothy seed are produced annually in the North Central States. That

this seed is marketed, commencing about August 15th and that agents of the large American seed houses carry Eastern Canada, taking orders during the months of November, December and January, for seed to be delivered the following spring. It is therefore highly desirable that Alberta timothy seed growers should hold warehouse receipts for their cleaned and graded seeds as soon as possible, so that the quantity of timothy seed available, together with the holders of warehouse certificates may be listed from week to week for the information of prospective buyers.

(4) The Chicago market virtually controls the world's prices for timothy seed. The freight rates on seed from Chicago to points in Eastern Canada, plus the import duty, are approximately equal to the prevailing freight rates between Alberta points and Toronto or Montreal.

The Secretary of the Calgary Grain Exchange has undertaken to procure the closing prices for prime timothy seed on the Chicago Grain Exchange from day to day and provide such information for general publication in Alberta daily newspapers.

Roumanians Win Rich Territory

Bucharest, Aug. 30 (via London, Sept. 1).—Roumanian troops invading Transylvania, have occupied the important industrial centre, Petrovny and the Turlavne valley, near Kronstadt, says the announcement of the Roumanian War Office.

The statement reads as follows:

Raising the Rates to \$1.50 a Year

From October 15, 1916, the yearly subscription rate for the Red Deer Advocate and the Red Deer News will be \$1.50 a year, instead of \$1.00 a year. There never has been any justification in the past ten years on an economic basis for selling at \$1.00 a year the almost new newspaper with which the Red Deer people have been served loyally. The cost of newsprint has increased from 25 to 50 per cent within the past year and a for their increases to follow, and other material in proportion, rendering a \$1.50 rate a business necessity if the papers are to be adequately maintained. A large number of Ontario weeklies have established the \$1.50 rate within the past year.

Within the past three years the subscription rates in Calgary for the Calgary daily papers have been raised from \$2 a year to \$5 a year.

The following papers in this district have been charging \$1.50 a year for longer or shorter periods:

Vergeville Observer \$1.50
Hanna Herald \$1.50
Stettler Independent \$1.50
Delburne Progress \$1.50
Lacombe Globe \$1.50
Hanna Herald \$1.50
Red Deer district and city has been given practically a semi-weekly local news service with the two papers, which has been of general advantage to all its residents. The increase in subscription price is one which is forced upon the publishers by economic conditions, and they believe the people will appreciate the causes which have brought about the \$1.50 rate which goes into effect for subscribers received on October 15 or afterwards.

It is therefore necessary for those of our subscribers who wish to have the News for another year at one dollar to pay up their subscription before October 15th.

Sons of England Grand Lodge

ANNUAL MEETING HELD IN RED DEER

Annual Meeting Held in Red Deer. The annual meeting of the Grand Lodge of Alberta, Sons of England, Benefic Society, was held in the City Hall, Red Deer on Monday last with Grand President—A. G. Ayres in the chair and about thirty delegates present from all parts of the province.

Mayor Carswell was introduced to the Grand Lodge by Grand Marshal, Bro. D. Smith of Edmonton, and gave the members a hearty welcome to the city.

The Grand President replied.

The following officers were elected for the ensuing year:

Grand President—S. E. Whiteside, Medicine Hat.
Grand Past President—A. G. Ayres, Red Deer.
Vice President—W. H. Horswell, Edmonton.
Grand Secretary—R. B. Gale, Calgary.
Grand Treasurer—T. Addy, Calgary.

The next place of meeting will be Medicine Hat the first Monday in September, 1917.

In the evening a splendid banquet was served to the visiting delegates and friends in the Parish Hall, the ladies of the local lodge. The tables were beautifully decorated by the ladies and the banquet was one of the most pleasant ever enjoyed in Red Deer. About seventy persons being present. The following was the toast list:

The King
"O! Canada."
E. W. Elton
selected E. W. Webb
selected E. W. Webb
Grand President, Grand Secretary
selected Miss K. Carswell
"Our Province."
Bro. Mayor J. A. Carswell
selected Sgt. C. Anderson
"The Motherland."
Bro. R. E. Fiske, D.D.G.P.
selected Bro. R. Thompson
"Our Visiting Brothers."
Bro. G. Edmondson.
"The Ladies."
Bro. D. Smith.
National Anthem.

We hope to have a more extended report of the Grand Lodge proceedings for the next issue.

"On the northern and northwestern frontiers our advance continues with success in all directions. Our armies occupied Turlavne valley, near Brasso, (Kronstadt), and the important industrial centre of Petrovny. Our losses were very slight.

"On our southern front, Hungarian military headquarters near Munkacs and Zimnitza."

Petrovny is the centre of a rich coal field near the southern frontier of Transylvania, lying in the valley of the Valean Pass through the Transylvanian Alps. The occupation of Turlavne Valley indicates the Roumanians are extending their invasion of the extreme eastern portion of Transylvania.

Munkacs and Zimnitza are Roumanian frontier towns on the Danube river.

Plain Straight Talk On Recruiting in Montreal

Hon. J. C. Doherty Gives Warning to People Who Would Disturb Recruiting Meetings in This Country

Montreal, Sept. 1.—Plain warning was given by Hon. J. C. Doherty, minister of justice, at a recruiting meeting for the Duchess of Cornwall's Own Irish-Canadian Battalion in Dominion square here tonight, that if there should be a repetition of the recent organized interruption at recruiting meetings in Montreal, severe punishment will be imposed on the trouble-makers.

The minister, referring to the riot of a few days ago in Place d'Armes, where some French-speaking citizens broke up the recruiting meeting, said—

"I want to say to my fellow citizens of Montreal that it was with amazement almost amounting to indignity that the government of this country learned that it has been possible for anyone to imagine or suggest that there was any place in this City or this Dominion in which a recruiting meeting could not be held."

After declaring that the work of recruiting "is the holiest and most important of any soldier's safety," he said that there was no hostile demonstration.

A special meeting of the City Council was held on Friday evening last, September 1st.

Members present were aldermen Johns, Lord, Smith, Galbraith, Colclough and Campbell with His Worship, Mayor Carswell in the chair.

The Mayor congratulated Alderman Campbell on his election and expressed his gratification that he had been selected as one of the city's aldermen.

Returning Officer, A. T. Stephenson, certified as to the passing of the \$55,000 by-law authorizing the issue of treasury notes by a unanimous vote.

J. M. Campbell was declared elected to fill the vacancy caused by the resignation of W. J. Botterill.

CORRESPONDENCE

Engineer R. G. Dawe asked for information as to what the Council was doing to rectify the sidewalk. He urged the early completion of the work.

W. A. Moore wrote the Council asking for delay in the appeal to the Utilities Commission.

The agent of the Dominion Lands replying to the secretary stated no permits would be issued to remove gravel from that portion of the Red Deer river opposite the park.

COMMISSIONERS' REPORT

Regarding the letter from the Fort City-Paving and Construction Co. replying to the secretary, we have been informed that after discussing the matter with our solicitors we decided it would not be wise for the City to undertake the work this fall, consequently we asked the solicitors to draft a reply to be sent to the Company. We would extend no undertaking to make the repairs this year.

We have managed to have the wells at the intake thoroughly cleaned of silt in Red Deer. The water remains flushed as a great deal of silt has accumulated in them this year.

We requested the agent of Dominion Lands Red Deer not to grant any permits for taking gravel from the bed of the Red Deer river opposite Gaetz Park, as we have been for several years trying to build up the river bank to protect the park from floods.

We have received shipping advice from the Dunlop Co. for five hundred tires, which we have been ordered to ship by the Dunlop Co. by-law regarding use of part of 5th Street North by Campbell, Wilson & Horne.

We submit accounts for your authorization to pay.

J. A. CARSWELL,
A. T. STEPHENSON,
Commissioners

ACCOUNTS

Payment of the following accounts was authorized—

Cushing Bros. \$141.84; S. Millman \$39.80; H. G. Stone \$3.25; Munro & Baines \$10; Gaetz-Corbett Co. \$2.50; Wright Hardware \$6.05; Day Hardware \$17.80; Baldwin, Dow & Bowman \$50; T. A. Gaetz \$1.50; Finnegan & Co. \$1.16; Imperial Hardware Co. \$2.50; Gatta Percha Co. \$23.84; Payne & Graham \$3; Wallace, J. P. \$23.50; G. Chapman \$3.80; Houghton & Son \$18.20; Wing \$2.00; L. G. L. Some Publishing Co. \$5.50; T. S. Miller \$5; Dunlop Tire and Rubber Co. \$250; entering water from the lower division of the Huns and Huns, building trenches, miles of new communication trenches and hundreds of ditches which rival any of the Huns and Huns. Some of these historic trenches may have been made without any losses.

FIXED THINGS UP

For the last few months the Canadian division has been working hard at strengthening trenches, building miles of new communication trenches and hundreds of ditches which rival any of the Huns and Huns. Some of these historic trenches may have been made without any losses.

A Canadian corps officer who is back in London brings the news that it is perhaps possible to publish, that the trenches have been away from these historic trenches many days and the changes were made without any losses.

paid a great compliment to the Canadian officers for the condition the trenches were in.

Russians Capture 19,400 Prisoners in Four Days

Petrograd, Sept. 4.—The Russians have broken across the Tienovska river, a western tributary of the Zlot-Lipa, and seized a position of the Austro-German troops, the war office announced today. They took 2,221 prisoners and six machine guns. The Russian victory was won in the neighbourhood of Brzezany, 50 miles southeast of Lemberg. Eighty officers and 2,411 men were captured. A gas attack near Baranovitch was repulsed.

In the vicinity of Vladimir-Volynski in Volhynia, fierce battles are in progress near Shetlovsk and Korythia. Heavy engagements also are under way along the upper Serech.

The Russian forces in the Carpathians, the announcement says, have captured a whole series of mountain heights and are advancing to the Hungarian frontier.

Between Thursday and Sunday the troops of the Russian commander, Gen. Hrasodoff captured 285 officers and 19,400 men. Of this number 11 were German officers and 1,300 privates. Twelve cannon, 7 machine guns and 7 bomb mortars were also taken.

Heavy Rains Cause Flood

The heavy rains of the past week have swollen the river and streams out of all proportion for this time of year. The Red Deer river had a run yesterday eleven feet above normal, and Hrasodoff Creek was over the banks in places. The result was that bridges in the park and running each side of the stream fifty feet in many places. The Russ Street bridge is in danger of being carried away for this time of year. The Red Deer river had a run yesterday eleven feet above normal, and Hrasodoff Creek was over the banks in places. The result was that bridges in the park and running each side of the stream fifty feet in many places. The Russ Street bridge is in danger of being carried away for this time of year. The result was that bridges in the park and running each side of the stream fifty feet in many places. The Russ Street bridge is in danger of being carried away for this time of year.

Penhold

Miss Hives, left last week for In-hospital. She took a position at the hospital.

The following articles have been sent to the Red Cross Society, Calgary. The Ridgewood ladies having done quite a lot of the sewing.

12 shirts,
20 handkerchiefs,
12 pair socks,
10 pair socks,
4 suits pyjamas
18 hot water bottle covers,
18 triangle bandages,
12 knitted wash bags,
12 knitted wash bags,
On October 9th, Thanksgiving Day, the Red Cross ladies hope to hold a chicken supper in Penhold.

School opened last week with Miss Gudmundson as teacher.

Mrs. C. W. Coote and Miss Coote, of Oakville, who have been visiting their son and brother, Mr. W. T. Coote, left Thursday morning for Calgary to visit another son.

Canadians Are Away From
Salient At Last

London, Aug. 30.—"We have held the salient this time three times longer than any other corps, and have had some severe fighting when we have been away from the salient. We have had eight different German divisions pitted against us, but most of us Canadians are sorry to leave it. Later we thought there was some chance of another German attack, but each time the Huns have paid them back so heavily that there did not seem to be any offensive spirit left. The Canadians are still somewhere on the western front, but the trenches have been defended for so long now that we are more confident.

A Canadian corps officer who is back in London brings the news that it is perhaps possible to publish, that the trenches have been away from these historic trenches many days and the changes were made without any losses.

WOMEN WHO HAVE MADE GOOD IN BUSINESS LIFE

Rising From Humblest Position to One of Exceeding Wealth Has Been Recorded of But Few Women

Women are more often credited with the spending of money than the making of it, and yet there have been many instances where women have either built up a big business and a fortune at the same time, or have resuscitated one which was at a very low ebb.

One notable example is that of Madame Papin, the widow of the famous Parisian dressmaker, who conducts a world-wide connection with the utmost confidence and success, and was only denied the Legion of Honor on account of her sex and the lack of any precedent on that score.

Take another instance. Mrs. Andrew knew little or nothing of work of any kind outside her own home, until her husband, the head of a big firm, became seriously ill, and the business threatened to collapse. But she set herself to save the situation and master every detail of the business. The fame of her work was such that when the United States Government ordered anvils, not only for its shipyards all over the country, but also for the Panama Canal work, she secured the contract.

A Friend to Her Employees

But, keen as she is on business, she spares time to interest herself in all her workers, and she is able to say: "There isn't a man in my employment that I don't know, and whose family I don't know—wife, children, and dog." Perhaps therein lies the secret of her success.

Miss Alice Durkin, of New York, is a master builder and architect, and undertakes anything from a church to a theatre, and from a tunnel to a hospital. She entered an office when a young girl, and whilst her colleagues were discussing "boys" and chocolates and matinees, she was studying specifications and mastering plans, and now her best moments are to be seen in the great public schools at Manhattan, which she has erected. She has carried out contracts for buildings of all kinds to the amount of a million dollars, and is frequently called upon to make decisions involving the expenditure of

thousands of dollars at a moment's notice.

Highest Salaried Woman

The woman who is believed to earn the largest salary in America is Miss Rose Corcoran, whose judgment on all matters of art is implicitly trusted by the leading American artists.

It is said that on the twentieth anniversary of her engagement as "a catalogue girl" she was presented with \$20,000.

An actress, who abandoned the stage to open a store and start a business as a house decorator, succeeded beyond the dreams of avarice, and derives an income of something like \$75,000 annually from her business, which is considered the best of its kind in America.

Timely Hints

Fruit pies can be prevented from boiling over while baking by putting one tablespoonful of cornstarch to the fruit. Sweeten the fruit to taste, add the cornstarch and heat before adding the crust.

Milk or cream when used in combination with tomato can be kept from curdling by adding a bit of bicarbonate of soda before mixing. A small quantity of bicarbonate of soda, stirred into milk or cream, will keep it from curdling in hot water.

Sweetheart by New Name

Certain words enjoy a popularity for a season, and there are rarely heard. "Dear," for instance, dates a long way back, and went out of fashion very many years ago; yet some few old-fashioned people retain it to this day when referring to a young man who is supposed to be paying attention to a girl. A recognized term of today is "admirer," and subsequently, when things have come to a climax, "lover," but rarely "beau." The "beau" has gone the way of the "beau."

A Tasty Potato Dish

Take one pound of boiled potatoes and pass them through a wire sieve. Mix into them one ounce and a half of butter, or dripping, and one ounce of finely grated cheese, the yolk of an egg, and pepper and salt to taste. Form into little rolls, about two and a half inches long and one inch in diameter, using a little flour to roll them. Put the rolls on a buttered baking tin, glaze over with a beaten egg. Mark with a knife, and bake in the oven till a deep brown, then pour a little melted butter over them, and sprinkle with chopped parsley.

PEAS IN POTATO FIELD

Record of How Crops Thrive and Make Money Together

Walter Johnson writes in the Maritime Farmer as follows: I have been interested in the method of growing in Vermont used to grow his market garden crop of green peas. He plants his seed in the fall for potatoes, and harrows in cow and horse manure. The next spring, just before planting time, he marks the ground 2 feet apart each way, dropping one piece of potato with two eyes to each hill or cross mark. He then has a man follow with peas, which have been soaked for a day in soft water, dropping not more than two peas to each hill. After fertilizer having been dropped over the potato, the hills are now covered by drawing the loose dirt over seed with the hoe and giving each hill a tamp with the hoe to pack dirt onto seed.

The peas and potatoes come together, a little pea being found in every row. The peas are picked and go through twice with the cultivator and once with the horse plow or shovel plow. The peas are not extra late variety, and season not too dry, they come up enough ahead of the potatoes so that the cultivator and shovel plow do not cover them while going through. For spraying the potato vines he uses a commercial prepared fluid of the Bordeaux type, which does not hurt the pea vines in the least.

He goes through late rows twice a week gathering peas for market, making a good revenue from peas to the acre. The pea vines do not choke the potato vines, and I believe help them, because in the hills where pea vines grow the loan seemed to be much lighter and porous. At potato digging time in September I measured the marketable potatoes; they averaged a bushel to 18 hills, or 288 bushels to the acre, which, considering the season, showed up much above the average.

The ground was rather light, receiving only a light manuring in spring, fertilizers put on at the rate of 60 pounds to the acre. The peas did a double service, giving a money crop and at the same time helping along the potatoes. The tubers were the smoothest I have seen harvested. It seems this method should prove profitable to those raising potatoes by the drill or furrow method.

Enamel on Auto Parts

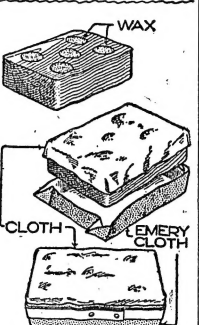

One thing which does its share to preserving the general appearance of the automobile is to occasionally touch up the lamps, windshield frame and other black enamel parts of the kind. Scratches and slight chipping off of the enamel on these is bound to come, and makers paint and varnishes can supply special enamel preparations to apply to scratched or marred spots in the next. These enamel paints often are furnished to do their work with one application with a brush and without any rubbing.

Grade Animals Win

The Shorthorn grade cows of England are, in the majority of cases, just as pure-bred as the pedigree animals. There the ordinary farmer has almost invariably used pedigree bulls so long that very little difference in quality is to be observed between well-bred grade cows and pedigree animals, and in milk production the grades often capture the premier prizes at the London Dairy Show.

To remove stains from a steel fence rub with a piece of raw potato.

FLATIRON POLISHER

WAX
CLOTH
FLATIRON POLISHER

Housewives, and others who appreciate the need for a smooth surface on flatiron will find the polisher shown in the sketch a convenient aid in keeping their irons in proper shape. A wooden block, about 4 inches wide and 6 inches long, was fitted with five thin patches of boxwood as shown in the upper sketch. The holes bored into the wood were made large enough to fit the wax, which may be purchased in large thinbladed pieces. A double layer of linen, or other strong cloth, was fitted over the wax having the wax imbedded in it, and a piece of fine emery cloth was folded over the other side of the block, so as to fit snugly over the edges of the cloth and emery cloth in place. The flatiron may be polished by rubbing it on the emery cloth side of the block and waxed slightly by rubbing it over the cloth side. From Popular Mechanics.

DELIGHTFUL SALAD PLANT

Cress in Several Varieties is Easily Grown

Any one unacquainted with cress has a pleasant surprise due him, if he will try it out in the garden any season, or plant some in pots in the house for winter use. The leaves are pleasantly pungent and may be used freely as a condiment, served with salads, or for garnishing. There are several varieties of cress—the ordinary variety and the water cress. The latter is probably for its quick-growing habit. If cress is wanted in its prime continuously, seed must be sown thickly, may be grown in large flower pots or boxes, in any light and reasonably warm place. The soil should be kept moist. Water cress is often grown in shallow waters, but the ordinary garden variety, more suitable for pot growing, simply requires generous moisture.

COSTLY FISH CULTURE

Canada Restores Natural Resources Through Expensive Hatcheries

Reference is frequently made to the extent, variety and value of Canada's fisheries, but it is rarely pointed out that fishing grounds are a very readily exhaustible form of natural resource. To grow a crop of fish, requiring considerable cultivation, is far more costly than raising a crop of grain, and the cost of fish culture is increasing rapidly. In 1915 the Dominion Fisheries Branch spent \$75,000 on the largest single item in its expenditure—upon fish culture. Although artificial breeding of fish has been carried on by the Dominion Government for nearly 50 years, the great growth and development of this branch of fisheries administration has been accomplished in the last decade. During the latest year for which statistics are available, 64 hatcheries were conducted and the aggregate of fry and fingerlings distributed reached 1,440,000 in round numbers.

Wash in Shady Place

When exposed to the direct rays of the sun, the motor car never should be washed. It should be moved into a shady place if the washing is done out of doors. The sun's rays will heat the car's frame, and the hot water will be so hot that the paint will be scorched. If the car is washed in the shade, the water will be cool, and the car will be protected from the sun's rays. The car will be washed in the shade, and the water will be cool, and the car will be protected from the sun's rays.

HALIFAX: WORLD PORT

Because of its geographical location, because Halifax is the most easterly of the Canadian ports, and because, too, strangely enough, it is never closed by ice, Canada through its Department of Railways and Canals, is engaged there on one of the biggest port developments in the world. Work to the amount of \$7,000,000 has been contracted for, and a total outlay of \$30,000,000 is contemplated. The port development at Halifax is attracting the attention of engineers everywhere. There is being built an entirely new railway entrance to the city, which means a re-location of the railway station and six miles of approach track through virgin territory within the city limits. Furthermore, a radical innovation in quay wall construction is being introduced. The work is no less interesting as a study in commercial development and national self-sufficiency for the port of Halifax, when completed, will be the climax of the grand Canadian transcontinental railway scheme, which has been fruitfully for the past decade; the transatlantic point which is intended to be carried entirely on Canadian soil, the "All-Red" line, the "All-Red" line, the "All-Red" line.

A factory for extracting oil from herring waste and making dried fish from residue has commenced operations at Lunenburg, N.S. It expects to produce 750 barrels of oil and 300 tons of fish scrap in one year. The supply of raw material will be secured chiefly from the St. Stephen plant of New Brunswick. The utilization of this waste will still further increase the value of the smoked herring industry of that port.

Leslieville

Messrs. Jenkins and Barham, of Benalto, are in the district buying cattle. They have been successful in securing about a carload.

Mr. L. McKinnon has returned from his vacation at Sylvan Lake. He brought with him a new Hudson which is giving the best of satisfaction.

Paul Leister and Steve Bucher have returned from Palouse, Wash., Rev. Mr. Heaven, of Ontario, is renewing old acquaintances in Leslieville.

Several of the people who visited Rocky Mountain House fair last year are lighting on taking in some other fair instead, this year. Last year an excursion was run to their fair and the fare, instead of being reduced, was twice the regular fare. Then to make matters worse, when it came time to return they had concluded that they would not run the return train, consequently the people who had depended on getting back the same day were forced to stay overnight, and some of them were left without a place to stay.

The Labor Day celebration, which has been announced in these columns, has been called off for unavailability of the chief guest being lack of organization.

Presentation at Sylvan Lake

A large number of Saskatchewan people met at the home of the late A. H. Hortaas, Sylvan Lake, Sunday the 27th of August, 1916, and Mr. P. H. Lowe told in a few words that their intention was not to brighten their Pastor but to surprise him with some money, which should be used to pay a new buggy. The following list will introduce the glad givers:

Rocky Mountain House

Leo, Letourneau, of Horburg, left last night for the Saskatoon, where he intends running a threshing engine this fall.

A daughter arrived at the home of Mr. and Mrs. Towler, in the village, on the 23rd.

Walter Dudley and Constable Allen made a three days' trip south last week, and returned on Saturday evening with a prisoner.

Oscar James of Horburg, is leaving for points south this morning. Two carloads of cattle were shipped from this point on Saturday morning to Calgary.

Hill Symonds has two hogs that he has been raising for some time. He still there are people that say we can't raise anything in this country. Can you beat it?

Walter Hamann has purchased 100 acres of land on the southeast corner of Mrs. Haworth's farm.

The Oldfellers are making some necessary improvements on their building. Wm. Ellengrubb, who has the work in charge, guarantees to take all the sway out of the building. Mr. A. Tolman, of Burr, Lake, was a visitor out this way the latter end of last week.

Mr. and Mrs. Hamblin and little daughter, who have been living just west of the oil well all summer, moved to their homestead on Prairie Creek, Vetchland, on Saturday.

Helen Leavitt, of Stettler, was in out burg on Friday. George is going to be again one of the largest exhibitors in hogs, etc., at our fair.

Mrs. E. Reillon and children, who have been visiting friends here for the past month, returned home to Vulcan in the morning.

The Trans Canada Amusements should help to make the fair a lively one this year.

Synopsis of Canadian Northwest Land Regulations.
 The sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan, or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may preempt a quarter-section along-side his homestead. Price \$3.00 per acre.
 Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.
 The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

RED DEER IS STILL THE "GARDEN CITY."

(Calgary Herald)
Parks Superintendent W. R. Reader has returned from Red Deer, where he has been spending the last few days judging gardens and exhibits at the Horticultural exhibition. This was the sixth annual exhibition of the Red Deer Horticultural Society, and proved a great success in spite of adverse circumstances.

In previous years the exhibition has been held in connection with the Red Deer fair, but owing to the latter having been held at an earlier date, this could not be done this season. Notwithstanding the heavy downpour of a week ago and some frost damage in the district, a very creditable collection of flowers and vegetables was brought together, and a number of very appreciative visitors attended the show.

Of the features of the exhibition, perhaps the most attractive were the beautiful pot plants sent in by many citizens. The vegetable display had not been greatly injured by the frost, and these were well up to the usual Red Deer standard. Cut flowers were rather a weak feature, and the masses of sweet peas that had been so conspicuous a feature of former shows was reduced to a very small collection. Those, however, that were shown were of a very fine quality.

The home gardens and grounds in the competition were in excellent condition, and for this reason Mr. Reader is not surprised that the Red Deer people speak of their city as the garden city of Alberta.

ANTIDOTES TO QUEBEC POISON

(Calgary News) (Telegraph)

Men of the Type of Lieut. "Bly" Bryan, Capt. Costigan and Capt. Niven are the best antidotes to the poison that is spread by Bourassa and the other disloyalists of Quebec. These are men who have served the Empire and civilization in the blood-drenched fields of France and Belgium. They know war for what it is, but they continue to remain in its forefront because they recognize the call of duty.

But what is it that keeps the disciples of Bourassa at home? Do they think they and their kind will predominate in Canada after the war? Do they pray that the heroic Canadians who have donned the khaki may fall victims to German shrapnel and German gas, so that the traitors of Quebec may be in the majority in Canada?

Why not face the question frankly? Why not take heed that it is the avowed intention of the French-Canadian element to overflow from Quebec into Ontario and the Maritime Provinces and even the Prairies, and

to do their utmost to secure predominance in these provinces? The issue is in plain sight of those who are brave enough not to turn their eyes away. What will our soldiers in the trenches think of us if we do not expose the treachery of Quebec?

Alberta Farmers' Live Stock Bulletin

September 2, 1916

Cattle. There was a good demand for real good cattle, several small lots selling at \$6.00. Half fat stuff that would kill sold from \$5.90 to \$6.00. The market on stock cattle was slightly lower, and the good kinds brought \$5.75 to \$6.00. Fair stock steers sold at \$5.40. Some extra choice heifers sold on Wednesday for \$5.00. Good cows and heifers sold at around \$5.30. We look for the market to be strong on good stuff for next week.

Hogs. The market on hogs opened at \$10.50, but with a slight run, prices advanced to \$10.55 Thursday, and \$10.65 Friday, with buyers assuming the freight from point of shipment.

Sheep. Fat, common to choice butcher \$6.00-\$6.00
Heavy butcher 5.25-5.65
Cows, choice 5.00-5.30
Cows, common 4.00-4.25
Stags 3.75-4.25
Oxen 4.50-5.00
Cows, canner 2.00-3.00

Veal calves 400 lbs. 7.50-7.75
Light feeding steers 5.75-6.00
Light feeding heifers 6.25-6.50
Springers, choice \$75-\$80
Springers, common \$55-\$65
Sheep-Good wethers 8.25-8.75
Ewes 7.50-7.75
Lambs 9.00
Hogs, selects weighed off ears \$10.65

THE OUTLAW GERMAN NATION

(London Telegraph)
We trust that the government will discover some expedient fittingly to mark the horror in which we in this country, in common with all decent-minded men in other countries, hold this nation which, in pursuit of a deliberate policy, assassinates law, murders humane feelings, and strangles with brutal hands the very promptings of mercy. This outlaw people must be punished, and the blood of the thousands of persons of that is the solemn resolve of the persons of rejecting, must be avenged. British people, as the Allies. Possibly it may be found that the surest and most effective measure is prosecution of the war to the utmost of our powers—the army at the front supported by the nation at home—with the determination to root out the seat of the disease, which has made the name of Germany execrated throughout the world.

England Is Praying Now

In Hull, England, there is a remarkable movement which is attracting attention in other towns. It appears to have begun through Admiral Beatty's letter, which said that "When England looks out with her eyes and prayer on her lips, then she can begin to count the days towards the end."

This message was taken to heart by a few business men in the centre of the city (of Hull), and it has made an ever-widening appeal to all classes and institutions. The practical suggestion is that there

shall be a pause 3 and 3.20 p.m. of people have been they can pray—can term and uplifting of national life, as we soldiers and sailors and war.

Not the least interesting that 450 printed cards bearing Admiral Beatty's message have been accepted and displayed by the local vicar of the city.

Lt. Tozer, of Alx, of the First contingent, wounded at the front and invalided home, was the guest of Capt. Dr. George last week.

Roumanians Eager to Strike a Powerful Blow

Bucharest, Sept. 1.—The Roumanian army is eager to show its quality and to undertake active military operations. It is determined, if possible not again to play a merely passive part, and the rumors that Roumanians would simply permit a passage for the Russian troops on their way to Bulgaria, and to perform certain outpost and passive services, such as combining the Austro-Hungarians on the west and south, are bitterly resented by the Roumanian soldiers.

They are anxious to overcome the impression left from the war of 1913 in which they achieved their purpose without striking a blow, as the Serbians and Greeks already had worsted Bulgaria, before Roumania acted.

The Big Fire in New Ontario

How a Brother of Mrs. T. H. Bickford Escaped

The following account of how one new settler in the fire swept region of New Ontario escaped with his life and how his neighbors were burned to death is graphically described in his home paper at Bracebridge, Mr. Daniel Nichols is a brother of Mrs. T. H. Bickford residing a few miles east of Red Deer, and she was almost prostrated, knowing her brother was in the big fire until she heard of his escape.

The horrors of his experience in the Temiskaming fire will last as long as his life with Mr. Daniel Nichols of Bracebridge, Mr. Nichols and his son Willie, a young man, had taken up homestead in New Ontario and were keeping batch while doing settlement duties. They had made some clearing and put in some crop and had sent word to Mrs. Nichols to come up and see how she liked it. Mrs. Nichols had planned to go north August 1st. Some days before that the fire became threatening and the Nichols worked day and night fighting it back on the borders of their clearings. Day after day, never ceasing they hauled water and fought the devouring element, but ever as they quenched or crushed it one place it came on again. During these trying days they had no chance to prepare food for themselves and barely time to snatch a few bites neighborly children also supplied them with what drinking water they got.

As the fire got fiercer and more fierce they put their clothes into two trunks and kept them on the wagon while they hauled water. Ever the dread Mrs. Nichols might come into the place of horror haunted him and at last he rushed to Matheson to wire her not to come. When he got there telegraphic communication was cut off. A friend speeding south offered to send it when he reached an open office and Mrs. Nichols got it when about to take the train.

Back to the burning forest rushed the brave fighter once more to take up the terrible work. Dense clouds of smoke enveloped them fairly roasting their eyes out but still they struggled to save home and lives.

Then the visits of the Elvin children ceased and the men were almost crazed upon finding their neighbors had all perished with their burning homes.

Then at last it was plain they must bend every effort to save their lives by flight. The horse had suffered almost as much privation for it could not eat the smoke crusted green oats but with trunks and water barrel still on the wagon they sought their way out.

One trunk fell off and broke open. Mr. Nichols tried to recover it but Willie insisted upon hurrying. Even as they looked back into the inferno on the wagon the heat was terrible. Only the blessing of a little water in the barrel which they used to soak their clothing saved them from burning while they fled.

Almost blind with smoke and heat, with terrible burns on hands and legs the father and son reached safety and are now in their Muskoka home recovering favorably.

Mr. Wm. Nichols and family suffered less severely and managed to save their lives, house and horses, but lost barns, cattle, hogs and crop.

Wedding Bells

PENTON—IKIN

The marriage was solemnized on August 23rd at the Pro-Cathedral of the Redeemer by the Rev. Dean Paget, of Mr. Basil Thomas Penton youngest son of Major Gen. Penton of Bournemouth, England, and Dorothy Kate Ikin, of Crossfield, Alta. Mr. and Mrs. B. T. Penton will reside at Pine Lake, Alta.

JAMIESON—SPENCE

Mr. W. R. Jamieson, packer at the Red Deer Grocery Co., is to be congratulated on his marriage at Edmonton on August 16 to Miss Ivy Spence. They have taken up house in Mr. Roy Ivers' residence on 2nd Ave. East.

WISEMAN—WALLACE

A pretty wedding took place in the Presbyterian Manse on Wednesday morning when Rev. W. G. Brown united in marriage Mr. George Edward Wiseman and Miss Audie McDonald Wallace, third daughter of Mr. and Mrs. F. Wallace, Red Deer. The bride was becomingly attired in a blue tulle suit with a pretty white hat trimmed with blue. They left on the morning train for Edmonton where they will reside for a few weeks prior to taking up their residence in Red Deer. The young couple start out their married life under the happiest of auspices, as with the best wishes of many friends especially in railway circles. Mr. Wiseman is now relieving agent for the Dominion Express Company at Strathcona.

FOR SALE

1914 Ford car in first class shape. For further particulars apply to the Ford Garage, Red Deer, Aug. 14.

'The Customer is Always Right'

HIS is the text or motto of a great and famous department store in Chicago. It is an assertion of the customer's place of supremacy in the relation between buyer and seller.

Any retailer who slights his customer is committing business suicide. The customer wants those who serve him or her to use the newspaper as a vehicle for their announcements of goods or service.

This is the modern and right idea. Newspaper advertisements give desired business news in the right place and at the right time. To ignore your customer's wishes in this matter is to commit a costly mistake—far more costly than newspaper space.

TO THE MERCHANTS OF RED DEER

Keep your eyes on your customers and humor them. It pays to do so. Keep very close to them—by means of advertisements in "The News."

What Canadian Women Are Doing For The War

An American correspondent gives the following interesting story:—
Madame Chase-Casgrain, wife of the present postmaster-general of Canada in the reading salon of this French vessel gave some interesting details of Canada's part in the war, and more particularly regarding the relief work being done by Canadian women to lighten the load borne by the allied soldiers.
The men of Canada have already gone to France and to the front 330,000 strong, making history at Ypres, in Picardy and in Gallipoli. To augment this effort the women of Canada are equaling the standard set by their husbands, sons and brothers. In recognition of her services to France Mme. Casgrain has been presented with the "medaille militaire" a reward without precedent, for no other woman holds this honor. The "medaille militaire" is given only to a mark of distinction and reward to heroes performing an exceptional feat of arms on the battle field. This is the highest honor which a soldier can receive and is obtained rarely by generals. But Mme. Casgrain is doubly honored, for the "medaille militaire" was given her, not by a government but by the united group of heroes on whom the "medaille militaire" already had been bestowed. Mme. Casgrain, however, wears her distinctions modestly and accepts them for all Canada, for the medal will be placed in the national archives.
Like heroine of Other Days
The principal of the numerous mediums through which Mme. Casgrain directs her efforts is the Magdeleine de Vercheres chapter of the Imperial Order of the Daughters of the Empire. There are in Canada 40 chapters of this order, including the Magdeleine de Vercheres chapter, of which Mme. Casgrain is the founder. Magdeleine de Vercheres, from whom Mme. Casgrain drew her in-

spiration, was a young French emigrant to New France, Lord Edward Grey styled her the first Canadian girl scout, because in 1665, during the critical struggles with the hostile Iroquois, Magdeleine de Vercheres marshaled her sons within the stockade and against overwhelming odds held off the savages for an innumerable days until relief came. While the fight was the hottest the heroine of New France said to her sons, "Bear in mind that good men are born for the purpose of spilling their blood in the service of God and the king."
This phrase has now become the motto of the chapter and the title of a book written by Dr. Doughty, secretary in charge of the Canadian archives. The book is expensively and tastefully illustrated by such as Haywood and Reid. The miniature of Magdeleine de Vercheres by Haywood is particularly well executed. A specially bound copy of the book, for which \$1,000 has already been offered is being prepared by Tiffany and Co. The regular edition is sold ordinarily for \$5 a copy and all the proceeds are turned into the chapter fund. On the Rochambeau a single copy brought \$50.

Many Agencies for Aid
From her offices, occupying a floor of the First National Bank building at Ottawa, Mme. Casgrain directs her work of collecting and executing funds and articles. A complete organization maintains a constant flow of contributions. Young girls at the hockey games alone collected \$2,000 from the crowds of spectators. Through pageants, bazaars, private donations and other means money and goods are sent to the front. Civil service employees leave their work an hour earlier than customary in order to work at home on articles to be sent in the trunks of soldiers.
Mme. Casgrain's energetic method of raising contributions has been equalled by energy in placing the gifts where they would do the most good. The first work of the Magdeleine de Vercheres chapter was to give Canadian Tommy's pocket dictionary and phrase book destined to aid them in France. Large funds were raised for the Canadian Red Cross society. Seventy-five beds were endowed in the "Clivenden," the English country seat which has been turned into a hospital, and sixteen beds were given to Busby Park hospital at Hampton court, one of the royal palaces. In money, \$2,250 was given to the Duke of Connaught for field ambulances. \$1,700 for the wives and children of soldiers killed at the front, and \$300 for Canadian prisoners of war. The palatial home of Sir Sanford Fleming in Ottawa received \$800, and \$200 worth of musical instruments and games was given to the 7th battalion. Also, \$250 was given for beds in the Kathleen Burke hospital, a Scotch undertaking set up in the old French Abbaye de Royanmont and housing

GILLETTE'S LYE EATS DIRT

a ward donated entirely by Canadians. Donations were made to many other institutions including the Victoria hospital for soldiers, and Mrs. O'Gorman's French Military hospital.

Troops Write Heroine of 1665
Also the troops were generously supplied with socks, pyjamas, sweaters and linen. When the packages were delivered the soldiers assumed that Magdeleine de Vercheres, the name signed to all gifts, must be a pretty maiden of modern days, and not the heroine of 1665. Grateful soldiers wrote letters conveying effusive thanks, and the book asked that she be the "Marraine" or godmother of the war—a custom now universal in France. To maintain the illusion, Mme. Casgrain asked her assistants to reply. So now besides relieving the physical distress of the soldiers "Magdeleine de Vercheres" is also lightening their mental pain.

The object of Mme. Casgrain's visit to Europe was to remit 30,000 francs (about \$6,000) for a fund destined to aid the French in territory occupied by the invaders. The sum is to be spent for agricultural implements and to advance to the needy soldier to enable him to give them a new start in life.

Confident of French Success
While in France Mme. Casgrain visited nearly the entire French front. She summed up her impressions as follows:

"I saw so much, in men and resources, that I am confident that France can never be crushed."
I could continue relating the efforts of Mme. Casgrain in behalf of the women of Canada to do their part of her schools for French and English in Canada—night schools for working girls and day schools for society women; of her museum of battlefields souvenirs, which she brought back with her to exhibit in Ottawa, Montreal and Quebec; of her gift of the allies to be given in Ottawa in September, and other means of maintaining interest in her enterprises. However, it is sufficient to say that "medaille militaire." That is enough evidence of the efficiency of her work.

Not Many Drunks

F. G. Forster, Chief Inspector under the administration of the Liquor Act, reports that during the month of July, the first month under the new Act, there were in the Province of Alberta thirty-six convictions for infractions of the Act. For the offences charged various magistrates inflicted fines in 27 cases aggregating \$1500.00; seven offenders were sent to gaol; two were allowed out on suspended sentence. The convictions were in the following places:—

- Calgary
- Edmonton
- Warner
- Red Deer
- Medicine Hat
- Grande Prairie
- Peace River Crossing
- A feature of special interest to Westerners at the Toronto Exhibition is the excellent exhibit made by the Canadian Pacific Railway, showing the agricultural, mineral, timber, fisheries and fur-bearing resources of Canada, particularly of the Western Provinces.

Highly Pleased With The Outlook

Mr. Orrin M. Curwin, vice-president of the Wells & Hickey Company, of Minneapolis, one of the largest financial houses in the U.S. Northwest, and Mr. Lawrence P. Robinson, of Spooner & Robinson, large farm mortgage dealers of Chicago, with Mr. Robinson, accompanied Mr. Kingman Nott Robinson, manager and treasurer of the Associated Mortgage Investors, of Rochester, N.Y., to Red Deer this week. Mr. R. B. Welliver, the provincial manager for Central Alberta from Calgary to Edmonton, drove the party through the country. They were highly pleased with the outlook, despite the frost, and emphatically declare that American farmers are bound to take advantage of the cheap fertile land of this country immediately if the war is over. Mr. Welliver has abundance of money on hand from the company for loaning purposes.
Out of about 400 mortgages in this territory which Mr. Welliver has placed in the past nine years, there have been only two foreclosures, which make very highly not only for the stability of this district, but also for the careful selection and good management Mr. Welliver has shown, and the money treatment accorded clients by the Associated Mortgage Investors.

L. I. D. No. 339

Interesting Meeting Held Last Week

Chairman Ross, Councillors Northey, Edmondson, Young, and others, and Secretary H. W. Fiske, were present at the L.I.D. No. 339 meeting at the city council chamber on Tuesday afternoon of last week.

Roads and Bridges
James Layden, Milnerston, would like the Council to take steps to construct a proper road past this place as he intended shortly to place his fence on the lines. At present public use of a trail across his land cut him off from water.

Some routine correspondence with the Public Works department re surveys asked for down Pine Lake way was read. The requests had been noted for the attention of their surveyor on the understanding that the Council pay any compensation in connection therewith. The Council's request for bridges had been referred to their Inspector.

Cannot Open Road at Edwell
Mr. Ernest Moore, Nelson, B.C., wrote re the opening up of a road-way past his farm in the Edwell district—N.W. 1/2, 26, 30, 26 W1., occupied by his tenant, Mr. John Sim. The road was impassable, prevented a sale of the farm, prevented marketing of grain—400 bushels of oats sold, and delivery impracticable, and made his flats a swamp in wet weather.

After some discussion, the secretary wrote particulars as to the farm. Mr. Moore stated the Council was not in a position, and would not be in a position for some time, to spare the money to open up the road. Councillor Blake believed it would cost \$500, and the tenant could get out through Mr. Graham's in bad weather, he had one road now.

Information Wanted re Widows
The Edmonton Board of Public Welfare wrote asking particulars as to dependency among widows with children in the district, and asking an opinion as to the method of relieving the distress incident to widowhood by means of cash payments under the direction of the Provincial government.

Mr. Secretary had not the information in detail asked for, and was not inclined to tackle it. The Council did not appear to be particularly interested in having him prepare the schedule so the matter was dropped.

Payments of Taxes
McDonald & Tighe, Edmonton, wrote as to L.I.D. taxes on 124 acres of northeast 21, 38, 27 W1. Mr. Hey was unable to locate the property from the description.

Free Hospitals
Literature regarding free municipal hospitals was presented.

C. Panchot, Edwell, wrote July 26 enclosing \$320 balance of taxes on \$25, 36, 26 W1 for 1916. He figured tax at \$16.57, less discount of \$1.65 and 3 days road work \$12. The secretary-treasurer figured out 1915 taxes as \$17.25 instead of \$14.93, so \$2.32 was owing, together with \$17.25 for this year. No road-work had been credited.
The department reported completion of survey of road on R. V. Bromley's in sec. 31, 36, 25 W1, and transfer of land required from Mr. Bromley.
C.R. taxes of \$49.74, 1/2 dis. count, had been passed for payment of Alberta Central and C. & E. rights of way. The Co. disclaimed ownership of portions of sec. 1, 2, 3 and 16, 37, 26, W4, not having bought any rights of way in those sections.

No Discount for Taxes
Mr. Hey presented the following correspondence:—

Red Deer, July 25, 1916
John Perrie, Esq.,
Deputy Minister, Dept. Mun. Affairs
Edmonton, Alta.

Sir—I am directed by my Council to ascertain from you if the Council has power to extend the time of disbursement of the 1915 tax.

Great delay took place this year in the transfer of books, etc., to the new Secretary-treasurer, and work on the assessments was not completed until the end of the year, as would be the case if the rebate is not allowed. Yours faithfully,
J. A. S. W. HENY,
Sec.-Treas. L.I.D. No. 339
Edmonton, July 31, 1916.

Sir—In reply to your letter of the 25th inst. I beg to say that the Council of a Local Improvement District has no power to alter the date up to which discount on tax payments may be allowed. The date up to which discount may be allowed by the Council is fixed by the Local Improvement Act, as July 1. There

is no provision for extension of time. Yours obedient servant,
JOHN PERRIE,
Deputy Minister.

Offer to Compromise Arrears of Taxes
Deacon, Deacon & Wilson, barristers, Vancouver, B.C., wrote July 24 August 4, as follows:

"We are acting for the owners of the southwest quarter of section 6, township 39, range 27, W 4, Alberta. A portion of this property is undivided while a portion has been subdivided into a subdivision known as Patricia Place, approximately 534 lots. It is the intention of the owners to take the proceedings necessary to have the plan cancelled and the property returned to farming purpose. In this connection we have written the Minister of Municipalities at Edmonton and have been informed by him that the question of compromise of taxes upon the subdivided portion as authorized by the recent legislation of your province should be taken up direct with you. We are proceeding with the application before the Public Utilities Commission for the cancellation of the plan and our clients suggest that the property is being returned to farming lands and has better become use of for any other purpose, the arrears of taxes should be computed on a farm land basis.

"One of the whole subdivision 39 lots have been sold and these are situated entirely in two blocks and are in one corner of the sub-division. The intention of the owners is to arrange either direct with the purchasers or through the Public Utilities Commission, so that all the sold lots will be returned in the corner of the subdivision and to exempt the one block from cancellation of the plan. We should be glad to know what arrangements for a rebate of taxes could be made with you."

Mr. Hey answered:
"Should not the township be 38, and not as stated in your letter, 39? The assessment roll handed over to me by Mr. Coope only shows 20 lots sold, your letter states 39, and I would be glad to have the names and addresses of the purchasers of the other 19 lots at your earliest convenience. The same assessment roll shows that apparently no taxes have been paid on this property since the plan was registered, with the exception of lot 14, block 16, on which the taxes have been paid to the end of 1915.

"The taxes (L.I.D.) against the property at the present time are as under:

	Current Arrears
532 lots at 25c	\$133.00 \$80.78
Block 5	1.00 3.60
Block 13	1.00 3.60
93 acres unsold	5.81 42.96
	140.81 \$89.96

(The arrears on the lots and blocks were for three years, on the undivided part five years.)

"You will see by this statement that the taxes now due this district are approximately \$1800. On the basis of the tax roll, the taxes now due would be, for the full quarter section, \$67.97.
There is quite a difference between \$66 and \$1800 in view of the fact that appropriations made and expended are based on the taxes levied as per the assessment roll. I do not think for one moment that the suggestion of your clients is reasonable or just in any way and am of the opinion that it will receive little, if any, consideration by my Council.

"I would strongly advise that a more reasonable suggestion be submitted on or before August 21. The Council was disposed to wait the arrival of another offer of compromise from the owners. The subdivision is four miles from Red Deer at Waskasoo school. Councillor Eckhardt had a story that prospective purchasers of lots in the subdivision were having a look at the new farm buildings on the McClure place as residences of Red Deer people. It appears that there is some \$600 owing on the property for four years school taxes, as well as the L.I.D. taxes of over \$1000. It is the T. A. Council quarter. Mr. Curren sold it to Red Deer for \$200 and after a year and a half, and they in two weeks turned it over to Vancouver men at \$25 an acre, receiving the difference in cash. Practically nothing had been paid on the purchase of the property since the first payments. At the last session of the Legislature a clause was passed giving Councils and Schoolboards power to encourage taxes in arrears in subdivisions like this, but these bodies are not disposed to make such compromise.

Agreement for Lease
Councillors Northey and Eckhardt submitted agreement from A. P. Olsen for lease for three years of half acre corner of sec. 6, 25, 27 at \$1 per year. The corner will be used for a diversion of the road.

Accounts Passed
The following accounts were passed: C. A. Higgs \$50; G. W. West, tamper plank, \$22.82; W. Boile, repairing sawyers, \$31. P. C. H. 14-2, work on bridge, \$17.5; Davis and Hammond, Deere breaker, \$30.15; J. Layden \$50; Harry Vokes \$50; Geo. P. Oakes, \$8.59; Cushing Bros. \$6.62; J. O'Leary, \$12.63; Stewart Bros. \$80.57; \$57.97; \$11.00; \$21.53; W. Springbett, \$35; \$60.9; 90c. Total \$2199.65

Pay sheets 25 to 42 for road work \$2199.65 were passed for payment. Found L.I.D. Not Owing Money
Mr. W. T. Coope appeared to state that he was in error in asking for payment of services from Jan. 1 to time new secretary-treasurer was appointed, as that interim had been adjusted when he took over the big dis-

trict in 1912. The motion was rescinded, as no money had been paid. Councillors' Remuneration
Councillors' accounts for attending meetings and mileage, and also laying out and inspecting work, and mileage, as under, were submitted and passed:

Councillor P. Ross, meetings and mileage \$42.00; laying out and inspecting work and mileage \$50.00.
Councillor R. E. Fiske, meetings and mileage \$28.00.
Councillor J. Eckhardt, meetings and mileage \$22.50.
Councillor B. C. Northey, meetings and mileage \$22.00; laying out and inspecting work and mileage, \$31.00.
Councillor R. E. Fiske, meetings and mileage \$21.00; laying out and inspecting work and mileage \$12.20. Total \$229.50.

The assessment notices, Mr. Hey said, will be finished this week, having been delayed owing to his illness.
The Council adjourned to the call of the chair.

McClary's Kootenay makes good cooks

Is it the proper thing to ask a woman to tinker with a range? Is there any reason why she should have to juggle things about the oven to keep them from burning; or "coax up" a slow oven; or why she should struggle with cranky grates? And yet how many women have to work against such odds!!
There are any number of women who think they can't cook when the whole trouble lies in the poor ranges they are trying to use.
Let the same women have a Kootenay,—let them get rid of the mechanics of running cantankerous ranges,—and they will cook as well as the next woman.

Do you know enough about Ranges?

Our illustrated booklet explains clearly the features of fuel economy, of durability, and convenience, that have made the Kootenay famous. Mail the coupon to the factory. Just as a reminder to get your copy, tear out the coupon now.

The Gaetz-Cornett Drug and Book Company, Limited.

Capt. H. Meeres and Sergt. Walker of the 187th were in the city yesterday.

The picnic of the Eastern Star Lodge has been postponed indefinitely.

Mrs. E. Howlett returned on Monday after spending two weeks in Edmonton and Vegreville.

Mr. D. G. Gunn, C.P.R. agent, and Mrs. Gunn, arrived home last week after holidays at Winnipeg.

Lieut. Poulter, Lieut. Botterill and Lieut. Brown, all of the 187th, were in the city on Sunday last.

The regular meeting of the L.O.D.E. will be held Friday, September 8, at 3.30 p.m. in the Public Library.

Mrs. N. R. McDonald and family came in from the ranch at Leslieville Thursday and will resume residence in Red Deer.

Rev. L. Elgin Brough supplied the pulpit of the First Baptist Church, Edmonton, for three Sundays during his absence on vacation.

Band Concert on the City Square, Wednesday evening at 8.30. Citizens' Band and several members of the 187th Batt. in attendance.

Have a look at John McVicar's window Wednesday and see the amount of school books and supplies. Issued of marriage licenses.

Don't miss seeing the celebrated character comedian John Barrymore in a laughing comedy, "Nearly a King," at the Lyric Theatre Friday night.

Pte. W. C. Gillis was reported slightly wounded but returned to duty Wednesday last. He joined with the 12th C.M.R. and was in the third troop.

The Provincial Convention of the W.C.T.U. will be held in Red Deer September 20 to October 2. Mrs. Nellie McInnis will be the Convention speaker.

Lieut. Dyer, of the 187th Batt., who was sick with fever, is able to be about again, and came up from Calgary last week. He is at present the guest of Mr. and Mrs. Kilburn.

The Citizens' Band augmented by several members of the 187th Batt. Band now at 1.00 in the city will give an open air concert on the City Square on Wednesday evening, commencing at 8.30 sharp.

E. Michener, M.P.P. is able to resume his office work again after several weeks of sickness, but he is still a little weak and will take a short holiday, probably in the West to regain his usual health.

Mr. Delaire, of Sylvan Lake, was in town Tuesday and purchased a Cummins engine for his binder from Messrs. Whitty & Cotton. These engines are just the thing to carry the load when going through soft ground.

Mrs. Frost, of Calgary, was the guest of Mrs. H. Meeres over the week end. Pte. Meeres who is attending the military school, was also up over Sunday. Captain H. Meeres, will be in the city for a few days when he will go north on a recruiting trip.

A. W. Little, of Maidstone Cross, 200 miles north, has been looking at land in this part of the country with a view to settling here. Mr. Little is of the opinion we are getting plenty of rain, but is well pleased with the Red Deer district and may buy in this neighborhood.

Mrs. A. R. McKenzie, of Penhold, returned last week from Montana. She says crop cutting was pretty well over when she left and it seemed strange to come back to Alberta and find everything so green. However, crop cutting will be general this week if the rain holds off.

Mr. and Mrs. C. W. Hamilton have the sympathy of a large circle of friends in the death of their little daughter on Monday last from pneumonia. The funeral will leave the residence of James A. Youmans, Mann Street, this Wednesday afternoon at 2.30 o'clock for the Red Deer cemetery.

The W.C.T.U. will meet for Red Cross work at the home of Mrs. Brenner, 4th Street North from 2.30 to 4 o'clock on Friday after which the annual business meeting will be held. Delegates will be appointed for the Provincial Convention to be held in Red Deer, September 20th to October 2nd.

Roy G. Cornett, of Gaetz-Cornett Drug and Book Co., met with a nasty accident on Monday morning about three o'clock when leaving his residence to go duck shooting. He slipped on the back step in the mud and broke his knee cap. He suffered considerable pain but the doctor thinks he will not be lame.

Miss Smith and Miss Boyd of the Hospital staff returned from a most enjoyable trip to the Coast Tuesday of last week. They report a great crowd of people travelling on the railways, and the cities showing marked improvement with regard to the travelling public, but business was reported very dull still in the Coast cities.

Mr. and Mrs. John Plaxton and Miss Plaxton, of Toronto, are visiting Dr. and Mrs. Plaxton. Mr. Plaxton, who has been very ill for some time, is visiting the West with a hope that the bracing air of Alberta will do him good. Already he is stronger and his friends in Red Deer hope he will not be long restored to his old self again.

First Baptist Church, Rev. L. E. Brough, Pastor, Address 30-31 St. N.E. Services on Sunday conducted by the Pastor. Morning subject, "The God and the Clock," and the usual morning talk to the boys and girls. Subject, "Safe in the arms of Jesus." Sunday school follows the morning service. Evening subject, "Why does God love man?" You are welcome.

The Public and High schools reopened on Tuesday.

Miss Galloway, of Lethbridge, left Wednesday after a short visit with Miss Kingston.

Mr. and Mrs. F. Perry, of Detroit, Mich., left Wednesday after a visit with Mrs. C. Bremner.

Miss Norma Day is spending holidays at the farm, Miss Thornton taking her work.

The Ford Garage report sales to McKinnon Bros., Leslieville and to M. A. Shields, Penhold.

Miss Booth left Wednesday for her home in New Westminster, B.C., after three months visit with Mrs. L. J. W. Gold.

Michener Bros. have sold (theoretically to Messrs. Prince, Elsie, Markerville; Stewart Bros., Penhold, and to a Lacombe party.

Rev. N. D. Keith is moving his family to Edmonton to take up his work at the Ladies' College temporary quarters.

The Day Hardware Company are establishing a branch store, at present in charge of Mr. Dan Smith. The firm believe the two stores will give them greater advantages in purchasing and in prices to their customers. Mr. Dan Smith will be missed in Red Deer, but his dressy windows will be one factor in drawing trade to the new store.

John Allen, formerly of Stavely, in Calgary, characterised on a charge laid by the Postoffice Department of cashing a money order belonging to John Alm. Allen was better known at Stavely than Alm and when a money order came for Alm it was forwarded to Allen at Rocky Mountain house, the Stavely postoffice people thinking it was intended for him. He appears to have been hounded, and cashed the order.

Alex. Mitchell received a letter from the Deputy Minister of the Naval Service, a few days ago stating that his request to have his one dollar license fee returned could not be entertained. The latter from Ottawa concluded by stating: "It is quite evident that the variety of trout, commonly known as 'Bull Trout' frequent the waters of Waskasoo Creek, and therefore any fisherman in the waters thereof, without a permit, is illegal." Now the question arises as to the meaning of the word 'frequent' because we venture to say that twenty-five so-called bull trout have not been caught in Waskasoo Creek in twenty-five years.

Mr. F. E. Simonton, credit manager for the Red Deer Grocery Co., has returned from trips along the railway lines out of Red Deer and reports crops looking very fairly. He is disposed to think the crop will be good. Potatoes are all right; the frost did them good rather than harm in most places. The finest field of oats he saw was west of the bridge at Evans' where it reached to the top of his auto. He was disappointed to think the frost affected the grades on wheat and perhaps barley, in most sections, but he saw some fine fields of wheat out east along the Lacombe branch.

BIRTHS

At Red Deer, on August 27, 1916, to Mr. and Mrs. H. A. Barnes, a son.

At Red Deer, on August 29, 1916, to Mr. and Mrs. J. C. Brazier, a daughter.

MARRIED

At the Manse, Red Deer, on August 30, 1916 by the Rev. W. G. Brown, Miss Addie McDonald Wallace of Red Deer, to Mr. George Edward Wiseman of Strathcona, Alberta.

At the Manse, Red Deer, on August 30, 1916 by the Rev. W. G. Brown, Miss Inge, of Strathcona, to Mr. Leslie Milne Johnston, of Markerville.

DEATHS

At Red Deer, on Monday, August 28, 1916, Phyllis Mary, only daughter of Mr. and Mrs. C. W. Hamilton, aged 16 months.

CARD OF THANKS

Mr. and Mrs. J. M. Bott wish to thank their many friends who have expressed their sympathy with them in their great grief over the loss of their youngest son by drowning. It is a comfort to them to know that "Dannie" was loved by all who knew him.

MAID WANTED

Experienced maid wanted at once apply Mrs. H. S. Maxwell, care Merchants Bank.

MORTGAGE SALE BY PRIVATE TENDER

Pursuant to the directions of the Registrar, tenders will be received by the undersigned up to the 15th day of November, 1916 for the purchase of the S.E. 36, Twp. 36, Rge. 4, West 5th M. in the Province of Alberta, situated about 25 miles from Red Deer.

For further particulars apply to McDONALD & TIGHE, Vendors Solicitors, Edmonton.

Notice of Mortgage Sale By Private Tender

Pursuant to the directions of the Registrar tenders will be received by the undersigned up to the 1st day of October, 1916 for the purchase of Lots Fifteen (15) and Sixteen (16), in Block Ten (10), Plan 6209-A.F., Red Deer West situated on the West side of Third Avenue.

Mr. Fred Swanson left on Thursday to visit his mother at Ottawa.

Miss McLennan, Toronto, was a visitor with Mrs. G. W. Ball last week.

SWISS CHARD, A GREAT DELICACY

Mr. Fred J. Dodson, of the Indian Industrial School left at the News Office last week samples of Swiss Chard, which, if all accounts are true, should be grown by every person in Alberta. Mr. Dodson says:

"For the last two years we have grown, in the school garden, the pot-herb known as Swiss Chard. Chard or Leaf-beet. The seeds are sown in rows about two feet apart and the plants are thinned out so that they stand about 18 inches apart in the row. The thinnings may be used as 'greens.' Chard has very broad and thick leaf-blades and mid-ribs. When the plants are full grown the large leaves and stalks may be pulled as wanted (as you would pull rhubarb) and may be cooked together as spinach. We have by R. Hollander, can it leaves are cooked as 'greens' and the midrib as asparagus much better results are obtained. The plants produce stalks quite early and are not injured by the early frosts. Seeds must be sown each year and produce leaves and stalks for use much earlier than other pot-herbs while they may be used after the others have become too old and woody.

This year we are trying Chinese cabbage as a salad plant and are quite sure that it will be a favorite when it becomes known. The mildness of taste makes it preferable to the ordinary cabbage. They are little known in Canada but are worthy of a trial.

PURSE FOUND

Found Friday afternoon a purse containing a sum of money and railway tickets, by R. Hollander, can it had at this office by proving property and paying expenses. Red Deer, Sept. 1, 3-w.

MONEY FOUND

A small sum of money found on Gaetz Avenue south. Owner can have same from E. R. Hill by proving property. Sept. 5th 1-w.

FOR SALE

Team harness, nearly new, with 16 inch collar, double barreled shotgun, nearly new, strong secondhand buggy, 34 inch walking plover, good condition, creamers and 8 gallon cream can. Apply A. F. Nicholls, Clearview, 51 miles south. Sept. 1, 2-w-1.

FOR SALE

"Dragon" Imported Clydesdale Stallion (18074) (13415) Has sired some of the best horses in the Province. Formerly owned by J. Richards. For further particulars apply to D. A. Taylor, Red Deer. Sept. 5, 3-w-1.

Plenty of Wood Now

George Chapman was at Sylvan Lake last week and purchased a large quantity of first class dry wood. He shipped in two carloads, and will ship in more as soon as he can get more help. In fact he will be shipping in all the time and will be able to supply good wood in any quantity required at reasonable prices. Always cash when ordered. Red Deer, Aug. 28.

DEERING

NEW IDEAL

Grain Binders, Mowers, Rakes

In selecting a grain binder the farmer wants service—good service. If he buys a Deering grain binder, he will make no mistake.

It is built and equipped to give satisfaction. It is light running—in which respect it is not exceeded by any other on the market to-day. Its large range of reel adjustment, and the facilities it has for picking up down and tangled grain gives it a special value. The famous and well known Deering KNOTTER, the best of all knotters, ties knots that stay tight and ties all day without trouble.

This is a big point in its favor with the farmers. Don't fail to see it before you buy. We want your business, therefore we will make you the very lowest prices possible.

Yours for fair dealing,

Whitby & Cotton
